

ANNA KOMPPA

Hello my dear friends,

I would like to present to you a catalog of my works. I created this catalog especially for You!

I grew up in a beautiful city of Riga, Latvia. My mother encouraged my creativity and my interest for art. I always felt a need for drawing, but unfortunately I did not have enough talent in this area.

That is why I was coloring ready to use pictures. Then all of a sudden I had an idea, that I can do the same thing with the threads. And that was only the beginning!

I was always wandering, what the artist is feeling when he is drawing his own creations, where he is getting his inspiration? And so, I tried to embroider pictures. In these precious moments, when I work on my creations, I experience great satisfaction!

If you can only imagine how fascinating, exciting and hard it is! When after first strokes of needle you feel unsure of a result. You may not believe, but many times I had to start all over, when my job was almost finished, and redo everything again, day after day...

Finally, the last stroke of a needle and my work is ready. Happy emotions overflow me.

All my works are holding inside them the state of my soul and emotions that I experienced at those moments when I make them!

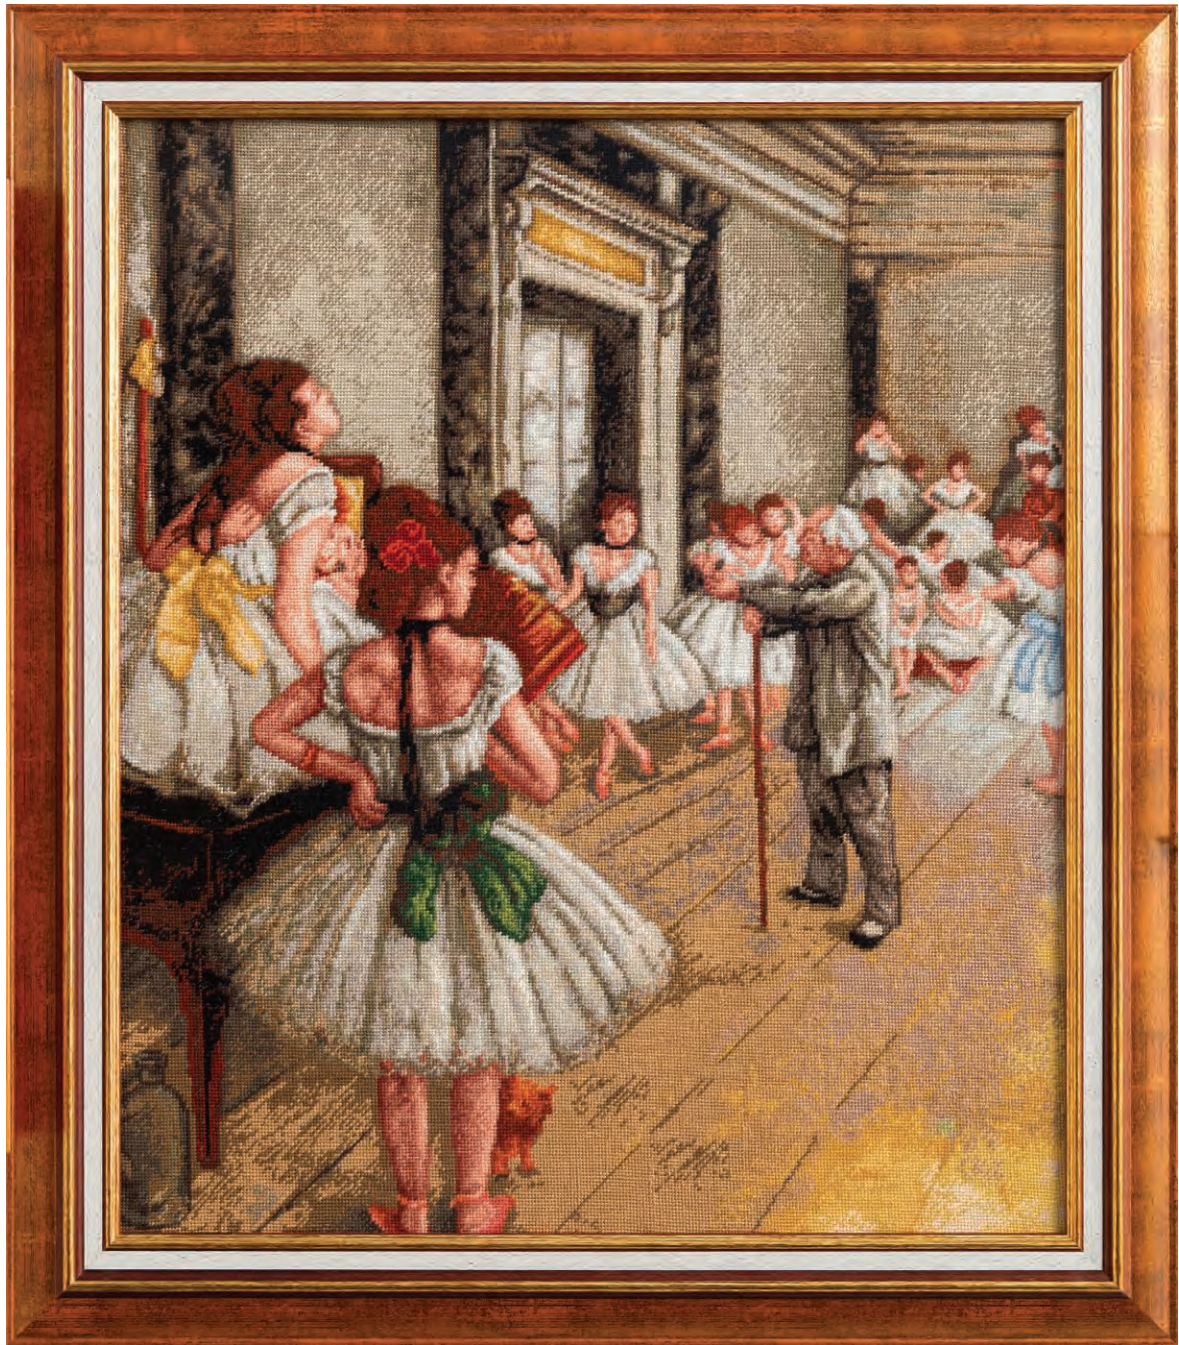

All pictures in my catalog cover different periods of my life. They reflect joyful moments as well as disappointments and even sadness...

Unnoticeably, picture embroidering overgrows from a simple hobby into something bigger and continues to accompany my life until present day. Therefore, my dear friends, I decided to share with you with just a small portion of my creations. Also, I would like to take a moment to say a big Thank You to everybody who supported and help me throughout the whole process, during many years!

Special thanks to my dearest mother and my husband who believed in me.

Respectfully,

Anna Komppa
